and English: <https://www.danubecommission.org/dc/en/extranet/e-library/>

- An updated version of the Recommendations for ensuring the security of navigation on the Danube (doc. DK/TAG 97/8) was adopted by the Decision of the 97th session (doc. DK/TAG 97/9) of 15 June 2022 - recommended for implementation by the Danube Commission Member States as from 15 June 2022.

BACKGROUND

- DC Recommendations DK/TAG 83/15 (the first edition)
- Proposals by the competent authorities of the DC Member States and other stakeholders identified in the Preamble to DC Rec.
- International Convention for the Safety of Life at Sea (SOLAS), 1974: International Code for the security of ships and of port facilities (ISPS-Code)

OBJECTIVE

- to establish **Outlines** for taking measures preventing consequences of:
 - **breach of security of vessels and of port facilities**
 - **illegal actions** against vessel crews navigating on the Danube

DANUBE COMMISSION
97th session

Annex
to the Recommendations for Ensuring the
Security of Navigation on the Danube
(doc. DK/TAG 97/8)

**General information on the DC member
states’ competent authorities for security on
the respective sections of the Danube**
With updates as of September 2023

- According to the International Ship and Port Facility Security (ISPS) Code (the SOLAS Convention) and DC SEC Recommendations (Chapter 7, para 7.1), SL3: exceptional threat level was set on Ukraine's Danube stretch for the duration of martial law in Ukraine

DC Rec "Security level 3: the level for which further specific protective security measures shall be maintained for a limited period of time when a security incident is probable or imminent, although it may not be possible to identify the specific target".

Questionnaire

(circulated by DC 248/XII-2023)

- **implementation status** of the Recommendations in DC MS
 - ✓ **document** regulating application of Rec SEC, **State bodies** enabling its implementation);
- practical implementation of the **Ship Security Plans** (Chapter 6) and the **Port Security Plan** (Chapter 13);
- **lessons learned** by competent authorities of DC MS during 2022/2023 in cases of security incidents, *e.g.*, onboard vessels/in ports;
- **challenges in** implementing Rec SEC during 2022/2023 to be taken into account when revising the structure of the current revision, including additional Chapters;
- DC MS' specific proposals **for amending / supplementing** the provisions of Chapters 1-13.

Further steps

The DC Secretariat will:

- **systematize** proposals by DC Member States to **modify/amend** the Recommendations based on practice of its application in 2022/2023 and 2023/2024;
- prepare **proposals for amendments** for EM SEC (February 2025) to reflect the current security situation on the Danube and upcoming sector trends; the new revision shall
 - address specific cases of security incidents on the Lower Danube as a result of Russian attacks on the infrastructure of Ukraine's Danube ports;
 - clarify Chapters 4, 7, 8, 12;
 - take into account new developments of the CESNI Committees (CESNI/PT, CESNI/QP, CESNI/TI (cybersecurity));
 - include DC MS feedback on *the introduction of international ship security certificate* (para 7.2.1);
 - consider outcomes of EM PORTS (12.03.2024) / WG TECH (10-11.04.2024).
- DC Member States are invited, if necessary, to **update the data** contained in the Annex "General information on the DC member states' competent authorities for the security of navigation on the respective sections of the Danube" and **send the updates to the DC Secretariat.**

Thank you for
