

## **DANUBE COMMISSION WG-TECH**

An update on the Secretariat's recent activities on the fields of Statistics and Economic Analysis  
V.1.1

---

**Domokos Xavér Iványi**  
**Expert on Economics and Statistics of the Danube Commission**  
Budapest, 13-15th of May, 2025

## 1. An overview on the Secretariat's main activities on Statistics during the past semester

1. Publication and printing of **the Annual Statistical Yearbook of 2022**
2. Data collection for **the Annual Statistical Yearbooks (2023 and 2024)** → the 2023 Yearbook is to be presented on the Working Group of 2025 Autumn
3. The preparation of **the 9 months and annual Market Observation Reports for 2024** (Q1+Q2+Q3-2024, Q1+Q2+Q3+Q4-2024)
4. Online participation on **PLATINA4** events (workshops, General Assembly)
5. **Contribution** to the Expert Meeting on Development of Ports and Port Operations (**EM PORTS**)
6. **Cooperation** with CCNR, via donau and other (inter)national organizations **on Statistics**

## 2. We need all our member states' help

- For the years 2023 and 2024, **only 4 of the 10 member states** have completed the DC's official statistical forms
- The latest dates of the updates on Statistics of 2023 or 2024 (only the templates):
  - **Serbia, 2025.04.17.**
  - **Croatia, 2025.02.19.**
  - **Ukraine, 2024.04.03.**
  - **Slovakia, 2024.08.09.**
- If even one country's data is missing, it could lead to **false or inaccurate aggregated results**
- In the event of Member States retrospectively updating or sending DC missing data for recent years, **the Secretariat will immediately update the files of existing Statistical Yearbooks** published on their website.
- For the member states and stakeholders, our yearbook offers an opportunity to contribute to and be featured in a collection of IWT data that is a **unique collection across Europe**
- The maintenance of working contacts with the Statistical Offices of the DC Member States is also needed. Accordingly, the Secretariat requests the DC Member States to **regularly update the contact details of these experts.**
