

### **Description of the scope of services covered by the procurement procedure**

The Danube Commission is seeking a reliable conference microphone system for the technical modernization of its meeting room. We hereby request bids for the following equipment and services:

- 24 delegate microphone units: Gooseneck design, desktop model, with built-in speaker, headphone output, “ ” and “Push-to-Talk” buttons.
- 1 chairman’s unit: Equipped with a priority button to mute the other microphones.
- Central control unit: Capable of managing at least 25 units (expandable as an option), equipped with a feedback suppressor and connectable to an external sound system (PA).
- Required cabling: All cables needed to daisy-chain the entire system or for direct connections (e.g., shielded CAT5/6 or special system-specific cables).
