

Information provided by Ukraine for inclusion in the Register of Damage in the Lower Danube Region caused by Russian Military Actions

24/02/2022 – 30/04/2026

Date of the attack	Location (region/city/town/port)	Type of weapon	Damages caused by the attack to infrastructure, port equipment and assets, shipyards, access roads, rail infrastructure, storage, logistics, and adjoining civil infrastructure/facilities	Number of people injured / killed
7/27/2022	Bystre river mouth, Ukraine	mine	At the entrance to the Bystre river mouth from the Black Sea, the small hydrographic vessel Shlyakhovik (flag of Ukraine) ran aground on a protective dam to avoid complete sinking due to the damage sustained (a hole in the bow - up to 1 m below the waterline), presumably from hitting a mine.	-
7/31/2022	Bystre river mouth, Ukraine	mine	At the exit from the Bystre river mouth, an explosion occurred near the midship frame on the pilot boat Orlik (owned by Delta-Pilot, a branch of the state enterprise "Ukrainian Sea Ports Authority" (SE "USPA")). The vessel sank. This casualty caused the temporary closure of ship traffic through the Bystre river mouth.	-
8/2/2022	Bystre river mouth, Ukraine	mine	An explosion occurred on a floating crane at kilometre 0 of the Danube River. It was likely caused by a mine. This incident caused the temporary closure of ship traffic at the Bystre mouth.	-
5/21/2023	Bystre river mouth, Ukraine	mine	A mine was discovered around the second pair of buoys of the Bystre mouth. This incident caused the temporary closure of ship traffic through the Bystre mouth.	-
5/26/2023	Bystre river mouth, Ukraine	mine	A drifting mine has been detected around the receiving buoy of the Bystre mouth. This caused the temporary closure of vessel traffic through the Bystre mouth.	-
7/24/2023	The seaport of Reni in the Izmail district of the Odesa region, Ukraine	unmanned aerial vehicle (UAV)	<p>As a result of the attack by unmanned aerial vehicles (UAVs) on the seaport of Reni, damage was caused to:</p> <ul style="list-style-type: none"> - The vessel traffic control centre (windows were broken throughout the building); - 2 cargo storage facilities; - 1 bridge crane (with a lifting capacity of 250 tons); - 1 weighing station; - 1 mechanization warehouse; - 3 grain storage tanks; - 4 oil storage tanks; - 2 tanks containing sunflower oil; - The infrastructure of the state enterprise "Reni Maritime Trade Port" (RMTP); - The storage facilities and products of Agro Reni LLC; - The premises of Ata Service LLC; - The vessel "SKIF"; - The premises and products of Reni Oil LLC; - The premises of Trans-Expo PE (leased) at berths 19 and 20; - The products of Teus Terminal LLC; - Different vehicles. <p>This attack resulted in oil leakage from damaged containers, contaminating the port water area of 140 sq. m.</p>	3/0

8/2/2023	The seaport of Izmail in the Izmail district of Odesa region, Ukraine	unmanned aerial vehicle (UAV)	<p>As a result of the attack, damage was caused to:</p> <ul style="list-style-type: none"> - Infrastructure of the state enterprise SE “Izmail Commercial Sea Port” (maritime terminal, administrative premises, grain warehouses, railway oil tanks, metal cargo cranes, etc.); - Premises and property of Sun Logistic LLC located at 7 Portova Street, Izmail, Odesa region; - Premises and property of the SE “USPA” at 28 Parokhodna Street, Izmail, Odesa region; - Premises and property of PJSC Dunaysudnoremont (damaged grain storage facilities with cargo) located at: Odesa region, Izmail, 1 Sudnoremontnikov Street; - Premises of the International Seamen's Club at 69 Parokhodna Street, Izmail, Odesa region; - The ship Monica (foreign vessel); - The petroleum products warehouse of Triton Service Ukraine LLC; - Property of Odinoil LLC; - Property of Daiteria LLC; - Premises of the Danube Basin Department, a separate subdivision of the sanitary protection of territories and means of transport of the state enterprise “Odesa Regional Center for Disease Control and Prevention of the Ministry of Health of Ukraine,” located at 85 Zaporizhzhia Kozak Street, Izmail; - Premises of PJSC Ukrainian Danube Shipping Company; - Property of Terminal-DT LLC; - Residential buildings in Izmail. 	-
8/16/2023	The seaport of Reni, in the Izmail district of the Odesa region, Ukraine	unmanned aerial vehicle (UAV)	<p>As a result of the attack by UAVs on the seaport of Reni, damage was caused to:</p> <ul style="list-style-type: none"> - 8 grain storage tanks; - 3 grain storage warehouses; - 2 forklifts; - A work tower; - A weighbridge; - 50 (fifty) tank containers for transporting oil; - 1 administrative building; - 2 internal port railway tracks; - Infrastructure of the Reni branch of USPA (Reni seaport); - Warehouses and vehicles of LLC “Danube Prom Agro” at 188 Dunayska Street, Reni; - Premises and property of Reni Elevator, 278 28 Chervnia St., Reni; - Premises and property of Reni-Line LLC, 188 Dunayska St., Reni; - Grain warehouses of Trans-Expo LLC, 188 Dunayska St., Reni; - Grain storage hangar of Terminal Dunaysky LLC; - Premises and tanks of Potoky LLC; - Premises of UKRCHEM LLC, 188 Dunayska Street, Reni. 	1/0
8/23/2023	The seaport of Izmail in the Izmail district of Odesa region, Ukraine	unmanned aerial vehicle (UAV)	<p>As a result of the attack by UAVs on the seaport of Izmail, damage was caused to:</p> <ul style="list-style-type: none"> - 1 warehouse for cargo storage; - 1 elevator; - Grain storage facility of Dunay Trade LLC; - Infrastructure (warehouses, administrative buildings, seaport building, etc.) of the Izmail branch of SE “USPA”, Dunayska Street and Portova Street, Izmail; - Premises and property of PJSC Ukrainian Danube Shipping Company, 22 Luky Kapikrayana Street, Izmail; - Grain warehouses of Riv.A.Holding LLC, 11 Portova Street, Izmail; - Premises of PJSC Kyiv-Dnipro Interbranch Industrial Railway Transport Enterprise, 300 Prydniprovskaya Street, Izmail; - Grain warehouses of PJSC Dunaysudnoremont, 1 Sudnoremontnykiv Street, Izmail; - Premises and other property of LLC “Agency Triton Service Ukraine”, 296 Pridunayska Street, Izmail; - Residential building on Svyato-Nikolska Street, Izmail. 13,000 tons of grain were destroyed because of the warehouses' destruction. 	1/0

	River port (terminal) branch “Bessarabska” LLC Agricultural enterprise “NIBULON” Izmail, Odesa region, Ukraine	unmanned aerial vehicle (UAV)	As a result of the attack by UAVs, the premises and property of the agricultural enterprise NIBULON LLC (grain warehouses and transport vehicles) were damaged.	-
9/3/2023	The seaport of Reni, in the Izmail district of the Odesa region, Ukraine	unmanned aerial vehicle (UAV)	As a result of the attack by UAVs on the seaport of Reni, damage was caused to: <ul style="list-style-type: none"> - 2 tanks (containing petroleum products); - 2 empty tanks for storing petroleum products; - A pumping station; - 2 oil storage tanks; - 4 tank trucks awaiting loading with diesel fuel; - Infrastructure of the Reni branch of USPA (Reni seaport); - Premises and other property of UKRCHEM LLC, 188 Dunayska St., Reni; - Oil tanks, administrative building of Reni Oil LLC, 188-B Dunayska Street, Reni; - Steam pipeline and premises of Reni Oil Transshipment Complex JSC, Odesa Oil Product JSC on lease, 282 28 June Street; - Oil tanks, premises, and other property of Potoki LLC, 188 Dunayska Street, Reni; - Property of Dunay Prom Agro LLC. 	3/0
9/4/2023	The seaport of Ust-Dunaysk and The seaport of Izmail in the Izmail district of the Odesa region, Ukraine	unmanned aerial vehicle (UAV)	As a result of the attack by UAVs on the seaport of Izmail and the seaport of Ust-Dunaysk, damage was caused to: <p><u>Izmail seaport:</u></p> <ul style="list-style-type: none"> - 2 mechanization buildings; - The roof of an open storage area; - The roof and windows in the administrative building; - Water pipes; - 2 forklifts; - 3 forklifts; - 1 FUCHS 880 mobile reloader; - Hulls of two warehouses (each with a capacity of 5,000 tons, one empty and one loaded). <p><u>Ust-Dunaysk Seaport (Vylkove):</u></p> <ul style="list-style-type: none"> - 1 garage. - Infrastructure (warehouses, etc.) of the Izmail branch of SE “USPA”; - Windows in a residential building at Izmail; - Storage facilities of the Izmail Shipyard, 1 Artema Street, Izmail; - Warehouse and vehicles of the State Enterprise “MTP Ust-Dunaysk,” 2 Pridunayska Street, Vylkove, Izmail District; - Storage facilities of LLC “First Terminal Vylkove,” 8 Promyslova Street, Vylkove, Izmail District; - Storage facilities of LLC “UKR RID,” 4 Promyslova Street, Vylkove, Izmail District. 	-

9/6/2023	The seaport of Reni and the seaport of Ust-Dunaysk in the Izmail district of the Odesa region, Ukraine	unmanned aerial vehicle (UAV)	<p>As a result of the attack by UAVs on the seaport of Reni and the seaport of Ust-Dunaysk, damage was caused to:</p> <p><u>Reni seaport:</u></p> <ul style="list-style-type: none"> - Pipeline for loading sunflower oil; - Administrative premises; - Utility rooms; - Oil storage tank; - Six oil transport trucks; - An unexploded UAV; <p><u>Ust-Dunaysk seaport:</u></p> <ul style="list-style-type: none"> - Road surface between the pier and the warehouse; - Warehouse; - Fertilizer cargo in big bags (in the warehouse and in the open area); - The Kiliya port facility was left without power; - 3 storage tanks for petroleum products; - 2 storage tanks for petroleum products; - Administrative premises; - Infrastructure of the State Enterprise “Sea Trade Port of Ust-Dunaysk”. <p><u>Other objects:</u></p> <ul style="list-style-type: none"> - Fuel tanks of the oil depot “Ruta Nova K LLC,” located at: Kubishkina Street, 20, Kiliya, Izmail district, Odesa region; - Elevator reloader and loaders of LLC “LAD” located at: Bukova Street, 5, Kiliya, Izmail district, Odesa region; - Railway tracks and fence of the Reni transshipment complex of Odesnaftprodukt JSC, 282 28 Chervnya Street, Reni; - Property of Dunay Prom Agro LLC, 188 Dunayska Street, Reni; - Administrative building, oil transportation pipe of Ukrchem LLC, 188 Dunayska Street, Reni; - Sunflower oil tanks of Potoki LLC, 188 Dunayska Street, Reni; - Municipal property – Kiliya Multidisciplinary Hospital, 13 Kubishkina Street, Kiliya, Kiliya Secondary School No. 2, 2 Miru Street, Kiliya Kiliya, “Delfin” nursery school, 23 Lermontova Street, Kiliya; - Petroleum products storage tank of KOV Kemers LLC, 20 Kubishkina Street, Kiliya; - Residential buildings on Kubishkina Street, Zakhysnykiv Zmiinoho Street, Sadova Street, and Vasylykivska Street, Kiliya; - Administrative building and other premises, Transport Unit “18th Marine Guard Detachment (division of boats and ships)” located at: Portova Street and Miru Street, Kiliya, Odesa Region; - Fuel tank of ANVITREYD LLC; - Property of Oil Start LLC, 28 Chervnya Street, 266, Reni; - Premises of the Reni District Court, 122 Soborna Street, Reni. 	3/1
	Kiliya, Izmail District, Odesa Region, Ukraine	unmanned aerial vehicle (UAV)	<p>As a result of the attack by UAVs on Kiliya, damage was caused to:</p> <ul style="list-style-type: none"> - 5 fuel tanks; - 1 sports building; - 1 warehouse building; - 1 farm building. 	1/2

9/7/2023	The seaport of Reni and the seaport of Ust-Dunaysk in the Izmail district of the Odesa region, Ukraine	unmanned aerial vehicle (UAV)	<p>As a result of the attack by UAVs on the seaport of Izmail and the seaport of Ust-Dunaysk, damage was caused to:</p> <p><u>Izmail seaport:</u></p> <ul style="list-style-type: none"> - The self-propelled barge ALV MAXX POWER (flag of Slovakia, in ballast); - The parking lot for freight vehicles (1.5 m x 1.0 m crater); - 1 freight vehicle (trailer burned down, tractor unit - windows broken); - Windows in the administrative building; - Windows on three gantry cranes. <p><u>Ust-Dunaysk seaport:</u></p> <ul style="list-style-type: none"> - 6 fuel storage tanks; - 2 fuel storage tanks; - Windows in the administrative building; - Open storage area. <p>Other objects:</p> <ul style="list-style-type: none"> - Premises of the Danube Regional Hospital, 11 Portova Street, Izmail; - Dry cargo ship "ALV MAXX Power"; - Tanks of LLC "Ruta-Nova-K" at the address: Odesa region, Izmail district, Kiliya, 20 Kubishkina Street; - The premises and other property of the 18th Maritime Guard Unit (boat and ship division) located at: Odesa region, Kiliya, Portova Street and Miru Street; - LAD LLC, 5 Bukova Street, Kiliya; - Residential building at 5 Bukova Street, Kiliya; - Premises of the "Lomachenko" recreation centre, 113 Pridunayska Street, Vylkove; - Premises of LLC "First Terminal Vylkove," 8 Promyslova Street, Vylkove. 	2/0
9/13/2023	The seaport of Izmail, the seaport of Reni in the Izmail district of the Odesa region, Ukraine	unmanned aerial vehicle (UAV)	<p>As a result of the attack by UAVs on the seaport of Izmail and the seaport of Reni, damage was caused to:</p> <p><u>Izmail seaport:</u></p> <ul style="list-style-type: none"> - The building of the checkpoint for freight transport; - The roadway (near the port area) - 3 trucks. <p><u>Reni seaport:</u></p> <ul style="list-style-type: none"> - 2 grain storage warehouses; - 2 utility rooms (thermoblocks); - 1 fuel storage tank; - 1 pipeline; - 8 vehicles. <p>Other objects:</p> <ul style="list-style-type: none"> - Ukrchem LLC, located on the territory of the RMTP (188 Dunayska Street, Reni, Izmail district, Odesa region); - Grain storage facilities of Reni Elevator LLC at 238 28 Kvitnya Street, Reni; - The warehouse of LLC "TRANS-EXPO" on the territory of the RMTP, where grain crops, freight vehicles, and auxiliary premises were stored; - Production and transshipment complex No. 1 of the SE "Izmail Commercial Sea Port" at 16 Portova Street, Izmail; - Residential buildings. 	11/1

9/26/2023	River Port Orlivka LLC, Izmail District, Odesa region, Ukraine	unmanned aerial vehicle (UAV)	As a result of the attack by UAVs on the LLC "River Port" Orlivka, damage was caused to: - 2 grain warehouses; - 7 trucks; - 2 administrative buildings. - Infrastructure of the Orlivka Ferry Complex LLC ferry crossing; - Storage facilities with the grain crops, located next to the ferry complex territory; - Trucks on the territory of the ferry complex.	3/0
10/5/2023	Orlivka village, Izmail district, Odesa region, Ukraine	unmanned aerial vehicle (UAV)	As a result of the attack by UAVs on the village of Orlivka, nine trucks were destroyed.	-
10/6/2023	River Port Orlivka LLC, Izmail District, Odesa region, Ukraine	unmanned aerial vehicle (UAV)	As a result of the attack by UAVs on the facilities of the LLC "Orlivka River Port," 8 trucks were destroyed, and 1 floating pier for receiving ferries sank.	-
10/11/2023	Seaport of Izmail, Izmail District, Odesa Region, Ukraine	unmanned aerial vehicle (UAV)	As a result of the attack by UAVs, damage was caused to: - Port infrastructure facilities, namely grain storage facilities belonging to PJSC "IRP" Dunaysudnoservis" (Izmail, 232-a Pridunayska Street); - Residential buildings (Izmail, 212, 267, 269, 271 Pridunayska Street).	-
10/15/2023	Bystre river mouth, Ukraine	mine	During the call of the ship ALI NAJAFOV (IMO 9175195, flag of Liberia, oil products tanker), an explosion was heard under the ship (presumably a sea mine detonation) at the Bystre mouth. According to the master, the main engine, the main deck in the midship area, and navigation equipment were damaged. On 18.10.2023, the vessel was towed and delivered to the berths of the Izmail seaport with the help of tugboats of the port fleet for unloading and repair work.	-
10/17/2023	Bystre river mouth, Ukraine	mine	At the entrance to the Bystre mouth, the motor ship SNOW (dry cargo, flag of Panama), which was sailing from Italy to the seaport of Izmail, noted an explosion of an unknown underwater device. According to the captain, no damage to the hull was visually detected. The ship continued to its destination port.	-
12/7/2023	The seaport of Izmail in the Izmail district of Odesa region, Ukraine	unmanned aerial vehicle (UAV)	As a result of the attack by UAVs on the seaport of Izmail, damage was caused to: - 1 lighting mast; - A warehouse; - Road surface near the port entrance; - 5 trucks; - Elevator wall; - The elevator's fence; - 8 empty grain silos (empty). Total volume: 2,000 cubic meters. Other objects: - 6 fuel trucks; - Railway track and 3 railway cars with grain crops; - Elevator building of E.K.O. Group LLC "Izmail Elevator"; - Warehouse premises in Izmail, 16 Portova Street.	0/1

12/14/2023	The seaport of Reni in the Izmail district of the Odesa region, Ukraine	unmanned aerial vehicle (UAV)	As a result of the attack by UAVs on the seaport of Reni, damage was caused to: - Warehouse No. 2 with grain at 188 Dunayska Street, Reni, owned by Logistli LLC; - Another warehouse with grain at 188 Dunayska Street, Reni.	-
12/27/2023	Bystre river mouth, Ukraine	mine	The motor ship VYSSOS (IMO 9385790, flag of Panama, in ballast, destination the seaport of Izmail) ran aground while entering the sea approach channel at the Bystre river mouth. The ship lost speed and control, as a result of which it collided with the coastal fortifications with its bow and partially damaged the protective dam. Seawater access to the engine room was recorded. On December 31, 2023, after the leakage was fixed, accompanied by vessels of the port fleet, the motor ship VYSSOS was moored at the berths of the Izmail seaport.	1/0
2/10/2024	The seaport of Izmail in the Izmail district of the Odesa region, Ukraine	unmanned aerial vehicle (UAV)	7 trucks and storage facilities were damaged as a result of an attack by UAVs on the seaport of Izmail. Additionally, private houses in Izmail were damaged.	5/0
2/22/2024	Bystre rivermouth, Ukraine	mine	During the disembarkation of the line pilot from the ship "Kathleen" (IMO 9127980, flag of Türkiye, cargo of 2,832 tons of wheat) to the pilot boat "Pilot Kohanov" (flag of Ukraine) in the area of the second pair of buoys of the Bystre river mouth, an explosion occurred behind the stern of the pilot boat. Due to the explosion, the Kathleen turned off course and ran aground. With the help of the "Gepard" sea tug, the Kathleen was refloated and continued its journey through the Bystre mouth to its destination port.	-
3/24/2024	The seaport of Ust-Dunaysk in the Izmail district of the Odesa region, Ukraine	unmanned aerial vehicle (UAV)	As a result of the attack by UAVs on the seaport of Ust-Dunaysk, damage was caused to: - 1 gatehouse; - 1 administrative building; - 1 covered storage warehouse; - 8 road slabs at the vehicle parking area; - The electrical switchboard in the port territory; - 2 passenger cars and 1 truck; - Dockers' premises at the berth.	-
7/24/2024	The seaport of Izmail in the Izmail district of the Odesa region, Ukraine	unmanned aerial vehicle (UAV)	As a result of the attack by UAVs on the seaport of Izmail, damage was caused to: - 2 garage buildings; - 1 welding shop; - 1 administrative building; - Access road to the pier; - Grain transshipment line; - Carport; - Wall, exterior cladding, and roof of rigging warehouse and mechanization building; - Windows of adjacent administrative buildings; - The rear part of the cargo pier; - 4 loaded tank trucks with fuel and lubricants, 3 empty tank trucks, and 1 passenger car; - 2 conveyors; - Pipelines on the vessel JULIER (MMSI: 264163386) One UAV fell to the ground near the tanks after being shot down (did not explode), and one hit the area near the technical room, damaging the roof and breaking windows as a result of the explosion. Another UAV hit an empty area on the territory, and the blast wave damaged the windows of the pumping station.	-

7/25/2024	Seaport of Ust-Dunaysk, Izmail District, Odesa Region, Ukraine	unmanned aerial vehicle (UAV)	As a result of the attack by UAVs on the seaport of Ust-Dunaysk, damage was caused to: -2 administrative buildings; - Premises of the Vylkove vessel traffic control centre (conference room, roof, windows, doors, ceiling, electrical cable lines, the vessel traffic control centre building was left without power). - 1 private boat (sank); - 2 floating cranes and 1 floating pier; - Garage premises; - Welding shop premises. As a result of this attack, a leak of oil occurred and was localised by means of sorbents.	-
9/8/2024	The seaport of Ust-Dunaysk in the Izmail district of the Odesa region, Ukraine	unmanned aerial vehicle (UAV)	As a result of the attack by UAVs, the building of the Vylkove vessel traffic control centre was damaged (windows and doors broken, equipment damaged). The electricity was cut off.	-
9/27/2024	The seaport of Izmail in the Izmail district of Odesa region, Ukraine	unmanned aerial vehicle (UAV)	As a result of the attack by UAVs on the seaport of Izmail, damage was caused to: - Pumping station building; - Vessel Volgoneft-25 (flag of Ukraine, IMO 8943985, without cargo, without crew); - 1 cargo tank, fire main, railings, superstructure portholes, the cargo line between frames 126 and 130 on the main deck; - Diesel workshop. As a result of the attack by UAVs on the city of Izmail, damage was caused to: - 4 high-rise buildings and fifty private houses; - 1 enterprise building; - Passenger cars.	14/3
10/2/2024	The seaport of Reni in the Izmail district of the Odesa region, Ukraine	unmanned aerial vehicle (UAV)	As a result of the attack by UAVs on the seaport of Reni, damage was caused to: - 1 grain warehouse; - 2 trucks; - 6 trucks; - Administrative buildings.	1/0
1/17/2025	The seaport of Ust-Dunaysk in the Izmail district of the Odesa region, Ukraine	unmanned aerial vehicle (UAV)	As a result of the attack by UAVs on the seaport of Ust-Dunaysk, damage was caused to: - 2 oil storage tanks (empty); - Production buildings, structures, equipment, and tools of the “Kiliya Shipbuilding and Ship Repair Plant” of the PJSC “Ukrainian Danube Shipping Company”; - a 900 sq. m. lamp workshop and a 30 sq. m. workshop.	-
	Kiliya Shipbuilding and Ship Repair Plant, 2 Nezalezhnosti Street, Kiliya, Izmail District, Odesa region, Ukraine	unmanned aerial vehicle (UAV)	On the territory of the oil depot “Ruta Nova K LLC”, two vertical steel tanks with a capacity of 2000 m3 were damaged.	-
1/29/2025	Kiliya Shipbuilding and Ship Repair Plant Kiliya, Izmail District, Odesa region, Ukraine	unmanned aerial vehicle (UAV)	As a result of the attack by UAVs on Kiliya, damage was caused to: - Production buildings, structures, equipment, and tools of the “Kiliya Shipbuilding and Ship Repair Plant” of the PJSC “Ukrainian Danube Shipping Company”; - The boiler, hull, and shipbuilding workshops, covering a total area of 4,800 square meters; - The shipbuilding workshop and security building.	-

1/30/2025	The seaport of Izmail in the Izmail district of the Odesa region, Ukraine	unmanned aerial vehicle (UAV)	As a result of the attack by UAVs on the seaport of Izmail, damage was caused to: <ul style="list-style-type: none"> - The berthing facility; - The weighing platform; - The vessel "CHABELI" (flag of Slovakia, MMSI: 267131716, unloading diesel fuel, 1,500 tons on board); - Windows in two administrative buildings, the electrical laboratory, and the cargo area storage facility; - Transformer substation; - 2 petroleum product storage tanks (empty); - 1 petroleum product storage tank (empty); - Loading rack; - Utility rooms; - Pumping station; - Weighing station. 	-
	Izmail, Izmail District, Odesa Region, Ukraine	unmanned aerial vehicle (UAV)	As a result of the attack by UAVs on Izmail, damage was caused to: <ul style="list-style-type: none"> - 1 grain warehouse; - 5 apartment buildings; - Private residential buildings; - 2 educational institutions; - Passenger cars; - Hospital. 	1/0
2/13/2025	The seaport of Reni in the Izmail district of the Odesa region, Ukraine	unmanned aerial vehicle (UAV)	As a result of the attack by UAVs on the seaport of Reni, damage was caused to: <ul style="list-style-type: none"> - 1 empty warehouse; - 1 office building; - A gas trestle for loading tank trucks with liquefied gas; - 1 grain storage warehouse; - 1 empty storage tank for petroleum products; - Fence for an oil storage tank; - Windows of the administrative building; - Windows of the gatehouse; - Windows of the mechanization workshop; - Transformer station. 	-
7/16/2025	The seaport of Izmail in the Izmail district of the Odesa region, Ukraine	unmanned aerial vehicle (UAV)	As a result of the attack by UAVs on the seaport of Izmail and the city of Izmail, damage was caused to: <ul style="list-style-type: none"> - Administrative premises; - 1 compressor station; - 1 filling station; - A fire broke out at a gas compressor station covering an area of 600 square meters; - A fire broke out on a gas barge covering an area of 50 square meters; - The tugboat "AIR-N" (flag of Slovakia, MMSI number: 267131419 ENI 45018019); - The tugboat "SAGE" (flag of Slovakia, MMSI number: 267131413 ENI 45007212); - The ballast barges LBP-JE (flag Slovakia, BN number (no number)) and LBP-QN (flag Slovakia, BN number (no number)). - The tugboat AIR-N (flag of Slovakia); - The pontoon. 	-

7/23/2025	The seaport of Izmail in the Izmail district of the Odesa region, Ukraine	mine	<p>During dredging operations in the sea approach channel at the Bystre river mouth near buoy No. 6, the dredger Ingulsky (IMO 9646912, flag of Ukraine, Delta-Pilot branch) struck a mine. The vessel was holed and sank, lying on its starboard side and blocking the channel. Eight crew members were rescued (four of them treated in hospital), and three crew members died.</p> <p>On 09.09.2025, the Ingulsky dredger was moored at the Izmail shipyard.</p>	8/3
08/19-20/2025	The seaport of Izmail and Izmail in the Izmail district of the Odesa region, Ukraine	unmanned aerial vehicle (UAV)	<p>As a result of the attack by UAVs, damage was caused to:</p> <ul style="list-style-type: none"> - 2 tanks (3,000 cubic meters each) with a total area of 1,350 square meters caught fire on the territory of the oil depot of Triton Service Ukraine LLC; - 1 pontoon; - An administrative building, a control room building, and a pumping station with an area of 180 square meters; - A gas pipeline and a container caught fire on the territory of Ekonovatika LLC. <p>As a result of this attack, 945 tons of pollutants were released into the atmosphere, including 942 tons of carbon dioxide</p>	1/0
8/28/2025	The Danube River mouth, Ukraine	unmanned aerial vehicle (UAV)	<p>As a result of an attack by UAVs at the Danube river mouth, the survey vessel "Simferopol" (identifier A505) was damaged. 1 crew member injured, 2 crew members killed.</p>	1/2
9/2/2025	The seaport of Izmail in the Izmail district of the Odesa region, Ukraine	unmanned aerial vehicle (UAV)	<p>As a result of the attack by UAVs on the seaport of Izmail, damage was caused to:</p> <ul style="list-style-type: none"> - Fuel transshipment equipment (the State Emergency Service extinguished the fire); - 1 generator and staff accommodation (a trailer); - Pier on the coastline, where pipes for pumping fuel and lubricants, pipelines, and equipment for pumping fuel, auxiliary structures, pontoons, and trucks are located. <p>Damaged vessels:</p> <ul style="list-style-type: none"> - VOLGONEFT 25 (flag of Ukraine), a ballast vessel used as a buffer, was directly hit in the stern compartment, which caused a large internal explosion and led to the collapse of the superstructure, the rupture of fuel lines, and the ignition of residual fuel vapours; - SVIR (flag of the Russian Federation, IMO 8866694), vessel in ballast, used as a buffer; partial destruction of ballast tanks and deformation of the hull were recorded; - "NIKA SPIRIT" (flag of Palau, IMO 8895528), vessel in ballast, used as a buffer; - "MAZU" (flag of Liberia, IMO 9190195fuel); - "NAVIGER-2" (flag of Palau, IMO: 8230845, used as a buffer in ballast) recorded damage to its hull, resulting in seawater entering the hold, - Tanker CT TRADER (flag of Cameroon, IMO: 9786126) recorded damage to the bow superstructure: the deck deformed, and the fuel line was damaged. A fuel leak was detected, followed by ignition of the upper layer; the fire was localized by the crew. - The tanker STL FORTIS (flag of Tanzania, IMO 9109811), arrested and anchored, suffered damage to the deck (a 1.8 m long hole above the waterline), the integrity of the hull was compromised, but no seawater entry was observed. As a result of the night attack and damage to the vessels VOLGONEFT 25 and NAVIGER-2, oil products leaked into the port waters, which created a film about 80 m long and 10 m wide. 	1/0
